SECURITY

This website takes every precaution to protect users' information. When users submit sensitive information via the website, your information is protected both online and off-line.

When our registration/order form asks users to enter sensitive information (such as credit card number), that information is encrypted and is protected with the best encryption software in the industry - SSL. While on a secure page, such as our order form, the lock icon on the bottom of Web browsers such as Netscape Navigator and Microsoft Internet Explorer becomes locked, as opposed to un-locked, or open, when you are just 'surfing'.

While we use SSL encryption to protect sensitive information online, we also do everything on our power to protect user-information off-line. All of our users' information, not just the sensitive information mentioned above, is restricted in our offices. Only employees who need the information to perform a specific job (for example, our billing clerk or a customer service representative) are granted access to personally identifiable information. ALL employees are kept up-to-date on our security and privacy practices. If you have any questions about the security at our website, you can send an email to Admin@concretepiersystem.com.
